

### In Memory of Beata Tryjefaczka

For twenty six years of my life, I knew my mom's unconditional love. Devastatingly, two years ago, my mom, my best friend, the most important person in my life was taken away from me by ovarian cancer. For two years, my mom used every ounce of her being to courageously battle this horrible disease, which eventually took her life. I am in awe to have seen her strength and determination through the most painful time in her life. She remains in my heart forever.

This year in November, in honor of my mom, Beata Tryjefaczka, I will be participating in Run for Her, a 5K run and friendship walk to raise money for vital ovarian cancer research and awareness. I hope that you can help me reach my goal of \$3,000, and together, we'll help support research to end this terrible disease.
