

Schreiber Research Prize for Outstanding Mentored Investigators

Application Guidelines

2019

Background

The Schreiber Research Prize for Outstanding Mentored Investigators is named in honor of Ann and Sol Schreiber. Ann's battle with ovarian cancer inspired her husband Sol to start Ovarian Cancer Research Fund (now OCRA) in 1994, where Sol served as Board chair for many years.

Purpose and Eligibility

The Schreiber Research Prize for Outstanding Mentored Investigators is a \$5,000 biennial prize awarded to a junior researcher who can best demonstrate that he or she has been able to use prior OCRA funding to impact the field of ovarian cancer research by making a significant discovery, making an important contribution to the literature, or transitioning to a full-time faculty position. This prize is awarded to the individual and not his/her institution.

Only past winners of OCRA's Ann and Sol Schreiber Mentored Investigator Award qualify for this prize. Applicants must have completed their OCRA Ann and Sol Schreiber grant within the past five years (2015, 2016, 2017, 2018, 2019) to be eligible to apply for this award this year.

Terms

The prize recipient will receive a one-time payment of \$5,000. This prize is given to the individual and not his/her institution. Prize Recipients will be presented with the award at the Ovarian Cancer National Conference, in Seattle, WA, July 13, 2019.

Selection

The prize is selected by a committee comprised of members of OCRA's Scientific Advisory Committee. Prize winners will be notified in early June 2019.
