

# WE CAN END CERVICAL CANCER

## GET INFORMED

Find out the facts about cervical cancer and the human papillomavirus (HPV) that causes it.

Help educate other women in your life too.

## GET SCREENED

Cervical cancer screening typically starts at age 21 and is repeated periodically.

## GET VACCINATED

The HPV vaccine should be given to:  
**9-14 year olds** - two doses of the vaccine  
**15-26 year olds** - three doses of the vaccine
