## TALKING CLINICAL TRIAL

Throughout our Conference, generous breaks are allotted allowing for an ideal time to engage with conference attendees. A “Talking Clinical Trial” will allow industry partners to share educational content about their trial and clinical developments, along with time for a live Q&A.

Talking Clinical Trial presentations will run concurrently with at least one other presentation from industry. Sponsors must have an active clinical trial on ClinicalTrials.gov. Presentations must be educational, and should not promote a product, diagnostic test or assay. Content is subject to review. Maximum of 30-minute time slot (including Q&A) with industry.

“The variety of topics and the amazing credentials of the presenters. Each and every one shared compassion as well as information.”
